

**ELERO USA, INC.**INNOVATORS OF TUBULAR &
LIFT-TILT MOTORS/CONTROLS**PRODUCT BULLETIN**
Group Controls
4, 8 and 12 Units**KEY FEATURES**

- Operate up to 12 motors simultaneously
- Color coded terminal block
- Compatible with Elero 120 volt controls
- Removeable cover
- Built in master fuse
- Industrial quality relays

APPLICATION

The Elero's group control is a 120 volt AC unit that is used in applications when it is necessary to operate more than on 110-volt system simultaneously from one control. Hook ups for manual override of individual systems are also built-in to accommodate different applications of groups, sub-groups and individual operation. Elero offers group controls in sizes of 4, 8, and 12 units. The industrial relays are rated at 12 amps. Color coded terminal blocks result in simplified installation. The built in master fuse protects system against overload. The Elero group control unit is compatible with all Elero 120 switching devices including timers, remotes, sun and wind sensors as well as with all Elero 120 volt tubular and lift/tilt motors. Contact the Elero technical department for customized specifications, wiring instructions or additional product information.

TECHNICAL SPECIFICATIONS & DIMENSIONS

Operating Power	110 Volt AC
4 unit 8 amps	(10x10x4 beige box)
8 unit 15 max amps	(12x12x4 beige box)
12 unit 25 max amps	(18x18x6 gray box)

HOW TO ORDER

Item	Part #
4 unit group control	75.645.5051
8 unit group control	75.645.5041
12 unit group control	75.645.5031
